Office Action Summary

Art Unit: 3764

DETAILED ACTION

Specification

1. The amendment filed September 3, 2002 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The thickness of the sleeve being .5 mm - 5 mm, the lip, folding 1 cm of the sleeve, adhering the sleeve upon itself with "heat or elastic heat", the bands being manufactured by pinching, the band doubling the thickness of the sleeve.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Claims 1-3 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is new matter (as recited above) in the amended specification.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Brown whose telephone number is (703) 308-2682.
